15 July 1964

MEMORANDUM FOR: Deputy Director (Support)

SUBJECT : IG Report on Reporting of CIA Non-Staff Personnel,
dated 5 June 1964

Re:

1. After reading Jack Earman's report and his recommendations concerning the control and reporting of non-staff personnel on duty with the Agency, I felt you should be aware that [REDACTED] has done some work with the DD/P on this problem which, incidentally, I think is somewhat broader than merely a reporting deficiency. (We may require a new regulation on the subject.) At any rate I consider this to be a priority project in the coming three or four months if we are to assure the Bureau of the Budget that we have this aspect of manpower under control.

25X1A

2. The DD/P plans to put [REDACTED] on this problem to work with [REDACTED] this fall in an effort to iron out the difficulties and to impose a more orderly management system over these somewhat "ethereal" categories of employment.

25X1A

25X1A

3. Therefore, and for what it is worth, I thought I might suggest that an ad hoc committee made up of [REDACTED] and perhaps [REDACTED] of the Office of Personnel should be authorized to dig into this whole problem and present a detailed report and recommendations including a proposed regulation if necessary by about the 1st of January 1965. Let me know if you feel this approach has any merit.
